

CAD Standards Manager 2013

Updated: Next live webinar will be on Wednesday, April 10th

You can sign up here: <https://www3.gotomeeting.com/register/859901974>

Sooo... **This is pretty intriguing.**

Anyone who has attended one of my CAD Standards Round Table classes has heard me say, ***"To have an effective CAD Standard, you must make it easier to do things the right way than it is to do it the wrong way."***

Well, I'm not finished with my research yet, but the **CAD Standards Manager** developed by **CAD Masters** may be just the application to make that happen. It can be installed on top of your AutoCAD-based programs to help organize your standardized layers, symbols, linetypes, dimension styles, etc. One of the best parts, to me, is that it supports multiple standards. If you have a client that requires you deliver your work product to their particular standard, this program can accommodate that too.

You can check out a pre-recorded webinar demonstrating their 2013 release here or download this flyer detailing the highlights of the program.

Or, better yet, sign up for their next live webinar here: <https://www3.gotomeeting.com/register/621720174> **See Above.** It will be held on ~~Tuesday, March 12, 2013 from 10:30 AM – 11:30 AM PDT (2:30 – 3:30 PM ET)~~ **See Above.** Since this is a live presentation, you will have a chance to ask questions to see if the program will support your specific needs.

I have a simple request... If you sign up for the live webinar, please let them know you heard about it from **That CAD Girl**.

Carlson Software User Conference – Celebrating 30 years

Carlson's 30th Anniversary User Conference will be held in Cincinnati Ohio from April 7-10, 2013.

In addition to 3 days of instruction and having the chance to work directly with Carlson programmers and tech support staff, they have a super-special offer for current users of SurvCE. User Conference attendees who are also license holders of SurvCE 1.x or 2.x will be able to claim a free upgrade to SurvCE 3.0, to be released during the conference. Just bring your older SurvCE serial number(s) with you to the User Conference. (Note: there's a limit of two SurvCE serial numbers per registrant.)

There are a lot of great classes covering the desktop products as well as data collection and hardware.
