Wilmington Workshop

Thursday December 13, 2012

Session Descriptions

Session #1

CAD Tips & Tricks, Working with Online Content - In addition to the tips and tricks, we will go over some of the newer features in Carlson that integrate with Google Earth and Esri products.

Session #2

Carlson Data Collection, GPS and Hardware - This class will cover tips & tricks with Carlson SurvCE and SurvPC and, weather permitting, will include a field demonstration of Carlson's tablet data collector and GPS system.

Session #3

Survey Project from Field to Finish - Weather-permitting, the first half of this class will include going to the field and collecting data for the parking area, building and site features. Then, we will bring the data back into the "office", import and process the data and generate a survey plot plan on a title block.

Session #4

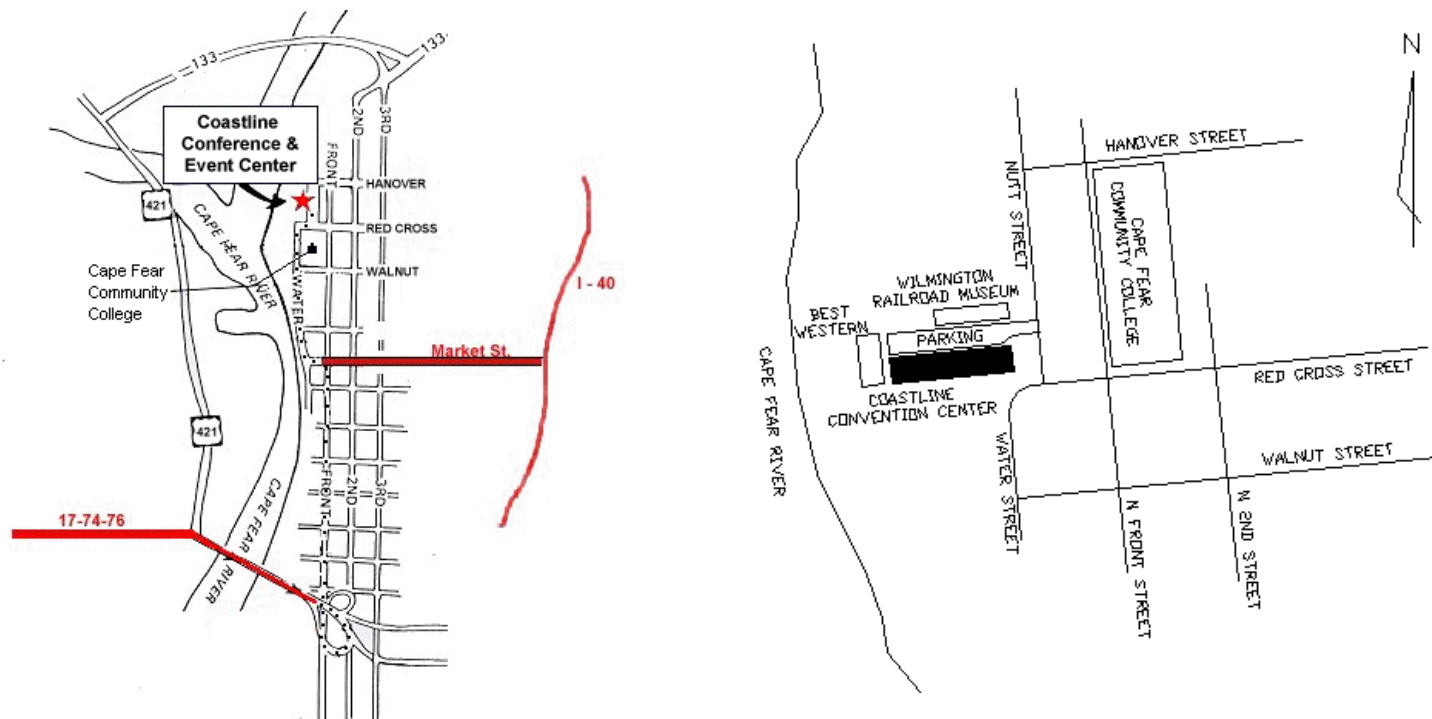

Civil Project from Field to Finish - This class will start with a survey point file that includes topo and features and go through the design of a project that includes both road and site features. We will also design storm drain structures and generate sheets (including plan and profile) and reports for the project.

That CAD Girl - Wilmington Workshop

coastline convention center

501 Nutt Street Wilmington, North Carolina December 13, 2012

phone 919-417-8351

Directions

From the New Hanover International Airport
