

Eagle Point Software® : Going... Going... Gone...

Following Autodesk's® lead in retiring Land Desktop, Eagle Point Software has recently announced the end of their civil-survey product line.

Carlson Software is now the only reasonably priced software solution that offers a complete surveying & design solution and that won't cost you thousands of dollars every year to stay current. [Visit www.thatcadgirl.com](http://www.thatcadgirl.com) to learn more.

Before you try Civil 3d®, Understand the TRUE costs ...

hardware

software and subscription

implementation and lost productivity

Instead, why not consider Carlson ?

With Carlson Software you can :

- Receive FREE technical support from Carlson's home office - no subscription required
- Run on top of any 2000-2010 AutoCAD-based program OR with FREE IntelliCAD, a program that looks, acts and feels just like AutoCAD
- Receive a FREE copy of IntelliCAD with every Carlson Software purchase
- Receive a FREE copy of ESRI ArcView when using Carlson Software with IntelliCAD
- Work with standard AutoCAD entities - No more worries about proxy objects or saving for others who don't have Land Desktop or Civil 3D
- Upgrade your software or hardware when YOU are ready - Carlson never retires their software and it's not hardware intensive
- Automate lot layout using area, frontage, setback and footprint dimensions - and your lots, labels & setbacks update when the road does!
- Easily design *AND GRADE* a network of roads in minutes—including fine grading intersections and cul-de-sacs - Yes, Easily!

Special Migration Pricing from Eagle Point to Carlson Software
