

That CAD Girl Presenting at the NCSS Institute, Nov '09

That CAD Girl will be presenting at the NCSS Institute in November 11-13, 2009

You'll have to wait a few months to see the full lineup, but I can confirm that I will be presenting a 3-day class at the Training Institute sponsored by the NC Society of Surveyors.

- Day One – AutoCAD/IntelliCAD basics with a focus on CAD Standards management
- Day Two – Carlson Software Features
- Day Three – Surface Modeling with Carlson Software
