

Are you playing “Musical Chairs” with your money this week?

Seems like every day since Thanksgiving has a name... “Black Friday”, “Cyber Monday”, “Small Business Saturday”, etc. I tried to think of something catchy for today but “Musical Chairs Money Monday” doesn’t roll off the tongue even if it does capture the essence of the next few days.

Until I got in business for myself in 2001 I never fully appreciated how much business was transacted those last few days of the year – or why. Now I understand it’s like playing musical chairs with your money... Spend! Spend! Spend! to make sure someone ELSE pays taxes on that money instead of you!

With that in mind, I am running some additional specials on software and hardware here at the very end of 2015 – including some specifically for new That CAD Girl customers.

Look for my Newsletter to go out later today (or tomorrow). You can sign up for the newsletter [here](#) or request a custom proposal [here](#).

Learn More About Carlson Civil

Suite and CADNet

Many of you have already taken me up on the offer to watch the recording of my recent Intro to CADNet: Working with Images and Linework webinar so I decided to do the same with today's Overview Of Carlson Software: All Substance, No Styles webinar.

There are a lot of changes coming to purchasing options of some of the most widely used Survey and Civil software programs and, along with Carlson's Year-End Specials, that means there's no better time to investigate and evaluate Carlson to see if it would be a good substitute for your Land Desktop, Civil 3d, Eagle Point, TerraModel or other program.
