Carlson College

I'm just finishing up the agenda for the first day of our [2022 Virtual Workshops](#) – and I couldn't wait to share! On Tuesday 11/15 we'll have 6 hours together for an **Introduction**

That CAD Girl

to CAD. I guess I'm well on my way to developing a "series" of these *Fast Track to...* sessions.

Whether you're using AutoCAD or IntelliCAD, I think this is going to be a very helpful training session because it's scheduled with plenty of time to dig into some of the necessities for beginners. And, although this is a lead-in to **Introduction to Carlson Software** next week, this is SIMPLY CAD STUFF and will be perfect for beginners!

Here's a bullet list:

- Drawing Environment and Settings
- Basic Draw Commands
- Basic Edit Commands
- Layers, linetypes and lineweights
- Linetype Scales
- Blocks and External References
- Model and Paper Space
- Drawing Templates
- National CAD Standards

If you think this lesson plan would help you or co-workers out, there's still time to register... only \$199 for 6 days of

That CAD Girl

training, and you can pick and choose which session(s) you'd like to attend!
