

Carlson Software 2025 has been released!

Carlson Software released the 2025 version of their desktop products on July 11, 2024.

With the 2025 release, Carlson has upgraded the IntelliCAD “experience” and now defaults to IntelliCAD 12 which is a major upgrade! Click [here](#) to review all the updates in the new 2025 software.

Carlson 2025 products can be installed with (included) IntelliCAD 11.1 and 12.1 or on top of your separately purchased license of AutoCAD 2019-2025.

Carlson’s 2025 products with embedded AutoCAD (OEM) are expected to be released within the next few weeks.

If you are currently running Carlson and have an active maintenance contract, **you are eligible for a free upgrade to Carlson Software 2025**. You will need your 2024 serial number and can use this Lookup screen to find your new 2025 serial number.

If you’re a past customer of That CAD Girl or Carlson CAD

Solutions, you may be able to find your Carlson Customer ID, serial numbers and maintenance reports on your Customer Portal.

FAQ: What are the improvements to Carlson over previous versions? (a running thread)

FAQ: What you should know about purchasing Carlson Software

That CAD Girl Has Some News to Share!

And we promise to make it a WIN! – WIN! – WIN!

We have some news to share! And it's guaranteed to be...

A WIN for YOU – our current or future customers!

A WIN for Carlson Software!

A WIN for That CAD Girl and Carlson CAD Solutions!

I can't believe it's been 22 years since I launched That CAD Girl... wow! That's so long ago you can be forgiven for not remembering that That CAD Girl started out by providing support and training for Land Desktop and Civil 3D ☐

By 2007, That CAD Girl had already changed directions by providing support and training for Carlson Software's desktop products. When Carlson approached me about becoming an Authorized Reseller, I agreed, and the race was on!

Thanks to you, and the trust you've shown by sticking with me, That CAD Girl has been the top reseller of Carlson Software's desktop products since 2010.

I truly believe the reason we've had such success as a Carlson Authorized Reseller is because we offer support and training – before and after the sale. Like our motto says – **That CAD Girl helps you buy what you need – and use what you buy!**

The down-side of all that success with selling software is that it left me with hardly any time for training – and I'm not complaining... it's been a good problem to have!

Claire DiBlasi officially came on-board as "That CAD Girl's Right-Hand" back in 2021. Our goal was for her to, eventually, handle all the software sales so I could get back to training. Claire is such a rock-star – she learned to fill my shoes in less than two years! She's been handling most of the sales and maintenance renewal orders for a while now and I feel so blessed to have found someone who takes care of our customers the way I would. There have been so many times that I've read her emailed response to someone and had to double-check to make sure I

hadn't written it myself. You are in good hands with Claire!

Now for that News I mentioned up top... we have decided to let Claire launch a new division of That CAD Girl called Carlson CAD Solutions that will focus exclusively on sales of Carlson Software!

This will allow me to focus all future efforts of That CAD Girl on training and support of CAD and Carlson Software for the benefit of end-users, other software dealers and Carlson Software (the Company) – **WIN! – WIN! – WIN!**

What, exactly, will be changing?

We have a new website at CarlsonCADSolutions.com that will become the Online Store for software. If you need to purchase new licenses of Carlson Software or request custom pricing for upgrades and maintenance renewals, please visit CarlsonCADSolutions.com.

The current site at **ThatCADGirl.com** will soon transition into one that is dedicated ONLY to support and training of CAD and Carlson Software. We will no longer sell software on this website.

Sales of Carlson from CarlsonCADSolutions.com will offer the best discounts in addition to all the same FREE training from That CAD Girl that you've received in the past.

What isn't changing? **That CAD Girl WILL CONTINUE to help you buy what you need – and use what you buy!**

What other changes are coming?

- There will be a lot of cross-pollination... CarlsonCADSolutions.com will provide links to ThatCADGirl.com for training and support AND CarlsonCADSolutions.com will link to

- CarlsonCADSolutions.com and/or other trusted partners
- Claire has a new phone number and email address!
She'll start using Claire@CarlsonCADSolutions.com and will gradually let her old @ThatCADGirl.com email forward to my Jennifer@ThatCADGirl.com address before it is eventually deactivated. The new phone number for Claire and Carlson CAD Solutions is (804) CARLSON – or (804) 227-5766
 - For now, That CAD Girl and Carlson CAD Solutions will have a shared Customer Portal. However, there will eventually be two separate portals – one for managing software licenses and the other for accessing links, recordings and certificates for training.

Please have patience with us for the next few weeks as we work to sort out the logistics of covering sales, support and training going forward. We want to organize services between Claire and me, and the two websites in a logical fashion with a goal of making it easy for you to find what you're looking for.

We are sincerely relying on your feedback about what you like, and what you don't, so don't be shy! Please reach out to Claire or me at any time – our contact information is at the bottom of this letter.

We will do everything in our power to follow through on our promise of a WIN! – WIN! – WIN! for everyone.

Jennifer DiBona, That CAD Girl
(254) 417-8351 or Jennifer@ThatCADGirl.com

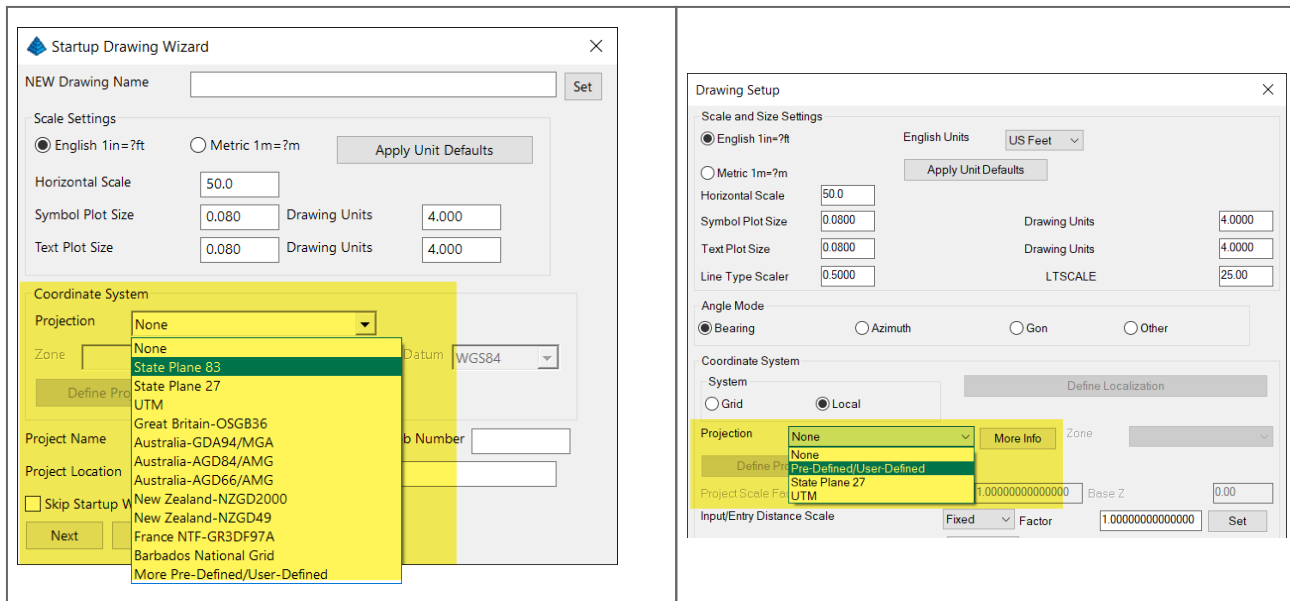

Claire DiBlasi, Carlson CAD Solutions (a division of That CAD Girl)
(804) 227-5766 or Claire@CarlsonCADSolutions.com

Understanding Changes to Projections and Zones in Carlson 2024... we have questions!

Carlson Software users starting a new drawing in the 2024 version of the software were met with a significant change in the drawing setup with regard to Projection and Zone. This has led to a lot of questions and confusion about what, if anything, needs to be done when opening older DWG files in Carlson 2024.

The Startup Drawing Wizard in 2023 is on the left and 2024 is on the right:

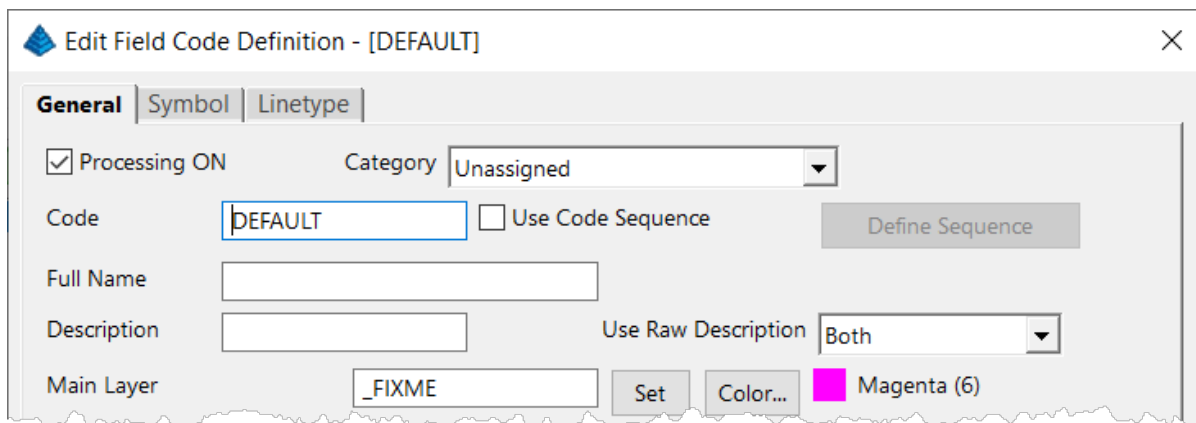

We have gotten some questions about this change so we reached out to Doug Aaberg, the Carlson Survey product manager, and asked him to give us a brief explainer about the change and to make himself available for a Q & A session. Luckily, we were able to find a date and time in March so we're very happy to announce that Doug will be joining us on Thursday, March 21st at 12:00 (ET) for this Webinar session.

Although it was originally planned to be offered only to subscribers of our Webinar Series, this topic is important enough that we know we need to offer it on a wider-scale. There are no pre-requisites, no commitments and no strings – just use the link below to register (to get a reminder) or to join the event in progress.

If you would like to review the recording after you attend or would like a certificate of attendance, please send us an email and let us know you will want those extras.

Click [here](#) to register!

Are you using a DEFAULT field code in Carlson Field to Finish?

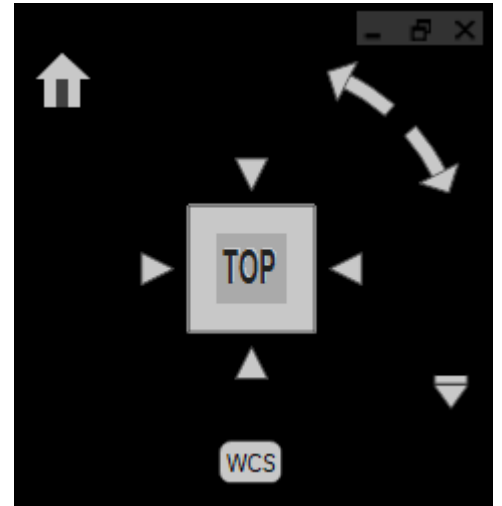

This is a “slightly known” feature that’s built into Carlson Software’s Field to Finish feature. The Field to Finish command is available in the Carlson Survey, Construction and Takeoff programs. Please see the video below to learn how to use the DEFAULT field code to quickly identify and find points with random, non-standard, descriptions that may need your attention.

Managing your View Cube in

Carlson 2024 with IntelliCAD

When I first launched Carlson 2024 with IntelliCAD, my first reaction was, “What’s that cube-thingy doing in my drawing screen?? And how do I turn it off?”. The formal name for the “cube-thingy” is a **VIEW CUBE** and, as I learned, turning it off wasn’t as easy as I thought.

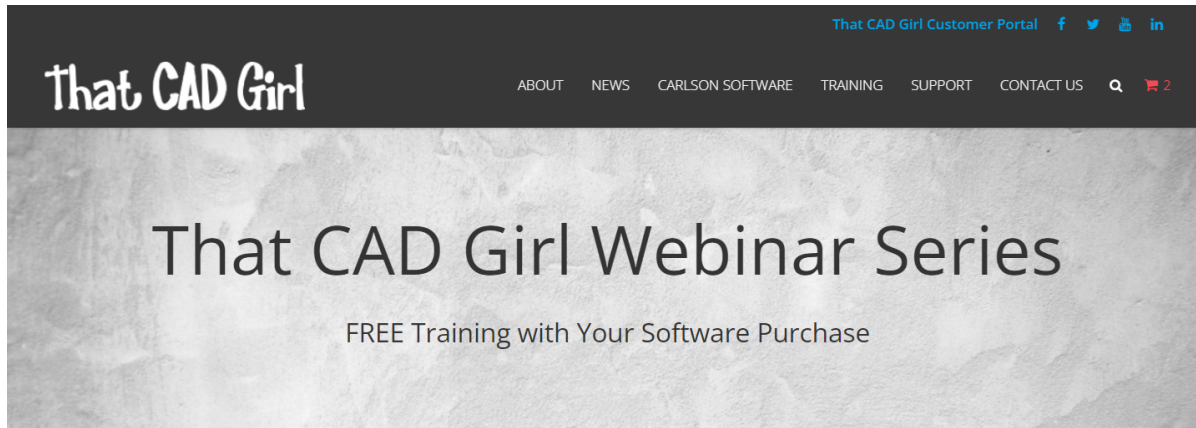

Here is what Carlson’s IntelliCAD manual explains about the VIEW CUBE:

The view cube is a navigation tool that indicates the current viewing direction and allows you to switch between preset views and custom viewing directions. You can also use the view cube to change the coordinate system and switch between orthographic and perspective projections.

The view cube displays in the current viewport when working in 2D model space or a 3D visual style. It becomes active when you move the mouse over it, and it can display with transparency or not at all when inactive.

I decided to upload a very short video that shows you how to turn it off – in case, like me, that’s your preference!

That CAD Girl's Webinar Series – Company and Individual Subscriptions now available!

About the Webinar Series

- Each purchase of new software includes a 12-month, "Company-wide" subscription for up to 10 employees
- If you don't need more software, you can also purchase a 12-month, [Company Subscription](#) or [Individual Subscription](#) from our online store
- There will be at least 2 webinars per month, except for November and December
- Webinar Series presentations are approximately 1-hour long, are live and interactive
- Attendees will have an opportunity to ask questions during the presentation – both verbally or by typing them into a chat window
- Webinar attendance is tracked using a personal name and email address
- Certificates of Attendance will be provided to those who attend the live presentation AND use a personal name and email address when registering or logging into the session
- [Read here](#) to find out how you might receive PDH or CEU credit for the webinars
- Technology-permitting, and for a limited time, recordings of webinars will be made available for review to those who attended the live presentation
- The first webinar each month will always be an Introduction to Carlson Software – Settings, Setup, Configuration & Points and will be presented with the most current version of the product
- Other webinars are scheduled and added regularly upon request

We've been working on the behind-the-scenes logistics of this for awhile and are finally ready to roll it out to everyone! We can now offer Company and Individual Subscriptions to our Webinar Series events.

Your company will still get a year's access for up to 10 users with any purchase of a new license of Carlson Software through That CAD Girl or one of our trusted partners (more about this coming soon!).

Now, with our Company and Individual Subscriptions, we have more to offer those who don't need more software.

That CAD Girl is heading west!

We're very excited – and appreciative! – to the Land Surveyors of Washington (LSAW) and to the Western Federation of Professional Surveyors for inviting us to present sessions at

their 2024 conferences!

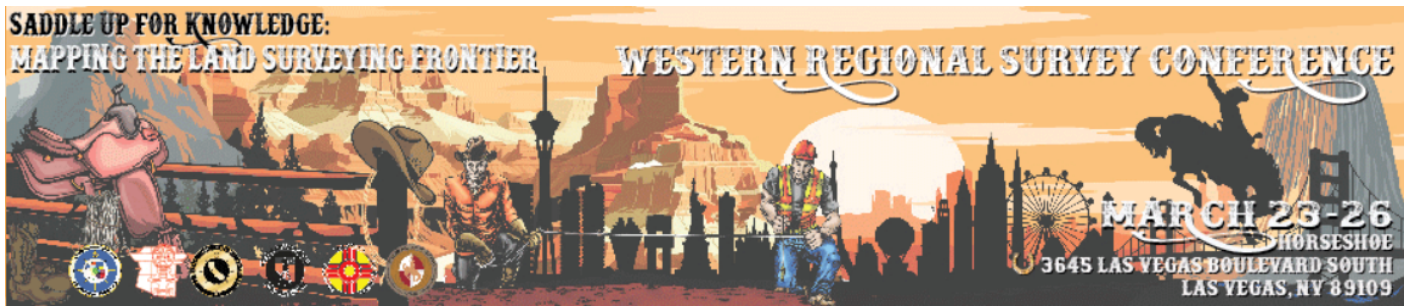

We will have some fun and exciting events at our booth that you won't want to miss, so make sure to come by while you're there!

In Tulalip at the 2024 LSAW Conference, That CAD Girl will be presenting ***Survey Project from Field to Plotted Sheet with Carlson Software*** – tentatively scheduled on Wednesday, Feb 28th.

At the Western Regional Survey Conference in Las Vegas, we will also have fun 'n' games at our booth and will be presenting ***Survey Project from Field to Plotted Sheet with Carlson Software***.

And you won't want to miss our other session! In Dueling Piano... err, ***Dueling CAD Stations: Civil 3D vs Carlson Software*** with John Dingwall of CAD Masters, we will go head-to-head to demonstrate how each program handles your day-to-day Survey work.

Early registration is still open for both Conference, so register today!

Have you registered for the NC Surveyors Conference & Trade Show yet?

You won't want to miss this year's NCSS Conference coming up February 8-10 at the Sheraton Imperial Conference Center in Durham! As always, there will be a full agenda of great educational sessions and a chance to catch up, visit and share all the best surveyors stories of the past year!

That CAD Girl will be there and we'd love to have you stop by our booth to say "Hi!" since it's been awhile since we've been able to attend.

Carlson Software 2023 Year End Specials

Carlson End-of-Year Software Specials!

Carlson Select Suite
Choose from the following modules: Survey, Civil, GIS, Hydro, CADnet, or Point Cloud Basic, plus Maintenance for 12 months from purchase

Pick Any 4 Modules **\$3,450*** *Save \$1,225*

Pick Any 2 Modules **\$2,550*** *Save \$1,135*

PhotoCapture Standalone & Point Cloud Advanced **\$5,995*** *Save \$3,355*

Carlson PhotoCapture Standalone + Point Cloud Advanced + Maintenance Maintenance for 12 months from purchase

Carlson Survey OEM 2024 **\$2,895*** *Save \$355*

Powered by Autodesk® AutoCAD® OEM

Carlson Point Cloud Upgrade **\$1,950*** *Save \$2,050*

Fast Track to Carlson Takeoff – January 2024

Don't miss our upcoming Virtual Classroom training from That CAD Girl!

A promotional graphic for a training session. On the left, a cartoon woman with brown hair and glasses, wearing a white shirt, sits in the driver's seat of a black car with yellow headlights. She is gesturing with her right hand. The background features a winding road and a map-like pattern. Text on the right includes the title 'Get on the Fast Track with Carlson Takeoff', the subtitle 'Quantity Takeoffs & Surface Modeling for Machine Control', the dates 'January 23rd, 25th & 26th', and a registration link. A list of topics to learn is provided, along with logos for 'That CAD Girl' and 'Carlson College'.

Our goal for 2024 is to double our offerings of long-form Virtual Classroom sessions and that starts in January with our Fast Track to Carlson Takeoff. This will be 2+ days of demonstration and presentation where users will learn to:

- Start your project from 2D images or paper
- Use Takeoff's layer-based system to track features and report quantities
- Easily account for subgrades and topsoil in cut/fill calcs

- Import CAD files and data from other programs
- Build complex surface models with multi-floor buildings and retaining walls
- Generate reports and cut/fill color maps
- Export files for machine control
