Carlson Software 2023 has been released!

On November 1, 2022 Carlson Software released the 2023 version of their desktop products. With the 2023 release, Carlson is focusing more on performance and stability and a little less on

new bells and whistles... I'm guessing the next version will be heavy in the other direction!

Carlson 2023 products will ship with both a preview release of IntelliCAD 11.0 and 10.1 and can also run on top of your separately purchased license of AutoCAD 2018-2023.

Carlson Survey 2023 with embedded AutoCAD (OEM) is expected to be released within the next few weeks but it's unclear at this time whether there will be a 2023 release of Takeoff OEM.

Any user who has purchased Survey OEM 2022 after 10/1/2022 will receive a free upgrade to Survey OEM 2023. If this applies to you, please Email us and we'll make sure you get your free upgrade.

If you are currently running Carlson and have an active maintenance contract, **you are eligible for a free upgrade to Carlson Software 2023**. You will need your 2022 serial number and can use this Lookup screen to find your 2023 serial number.

Highlights from the 2017 Carlson User Conference

It was a really fun time at the Carlson User Conference last week in Maysville and it's always great to see everyone. The folks running the show did a superb job with scheduling and Maysville rolled out the red carpet. I got excellent feedback from attendees about all the classes and extra-curricular activities!

See below for pictures of events and some of our favorite people in support who are often heard – but rarely seen!

**Data Collector Trade-In for
new Surveyor 2 with SurvCE**

This is a last-minute addition to Carlson's year-end specials...

If you have any old, broken-down, beaten-up, driven-over data collector laying around, it's now worth at least \$900 toward the purchase of a new Surveyor2 data collector with SurvCE.

Click [here](#) to request a custom proposal – prices will vary depending on the model of Surveyor 2 and the modules of SurvCE you need to have loaded.

Overview of Carlson CADNet webinar – Working with Images & Converting to Linework

One of Carlson's Year-End Specials this year is for existing Carlson users to add Carlson CADNet for \$995 – the retail price is \$1,595 and maintenance is an additional \$159.50. (Hint: I provide additional discounts for existing and new customers!)

Understandably this has generated a lot of renewed interest in this module. I have received a lot of calls and emails from folks requesting more information and wondering if, and how, CADNet might increase your productivity. So, in response, I've

decided to post the recording of my October 8, 2015 webinar on the topic, "Overview of Carlson CADNet – Working with Images & Converting to Linework".

Click here to request a custom proposal for adding CADNet to your existing license, for a new "Super-Sweet-Suite" that includes Survey, Civil, Hydrology, GIS AND CADNet or other Carlson software or hardware products.
