Frequently Asked Questions

[FAQ470] Maintenance for my SurvCE & SurvPC – Since when?

Yeah, well, that was short-lived. Carlson offered maintenance on SurvCE & SurvPC for only about a year and then discontinued it because there's no guarantee a new version will come out every year. Carlson has now gone back to a straight upgrade type program. You can follow this link then click on ***Request a Custom Proposal*** to request upgrade pricing.

If you purchased maintenance during that time feel free to send me a message and I'll see if you're eligible for an automatic upgrade.
