# [FAQ300] What features & menus are in ALL Carlson, non-OEM, desktop software programs? (a running thread)

FAQ: What are the latest improvements in Carlson Software?

## *Features and Benefits of all Carlson desktop programs*

The list below includes some, but not all, of the commands and functionality that is currently available in ALL Carlson software desktop programs:

- Work natively in DWG format files – whether using the IntelliCAD or AutoCAD platform,

- Import DGN, DXF, DWF files,
- Import and Export LandXML/RoadXML files,
- Export Google Earth KML/KMZ files,
- Export files to be used in GPS guided machine control systems,
- Export DTM, Google, Idan, Microstation, MOSS, Peabody, Topcon, and 12D polyline files
- Customize project folders and sub-folders to organize your project data,
- Incorporate your own CAD Standards Tools into basic drafting functions,
  Import, export and convert points using text or most any other format including Civil 3d,
- Access to the entirety of the Carlson software File, Edit, View, Draw, Inquiry, Settings, Points and 3D Solids menus including these popular commands:
    - Drawing cleanup
    - 2d and 3d polyline editing commands to reverse polylines, add/remove segments or vertices, etc.
    - Shrinkwrap entities
    - Boundary polyline
    - Erase and Copy by layer
    - 3d Viewer Window
    - Surface 3d Viewer
    - Search Published Control – an Esri-powered command
