Features and Benefits of GeoTech 2025

Carlson GeoTech provides the ability to import borehole data for analyzing subsurface conditions and materials.

“GeoTech will model all core samples and produce a detailed, easy-to-read report for drill logs, cross sections, and plan view,” says Dave Carlson, V.P. of Development for Carlson Software.

In addition, this information is fully integrated with **Carlson Civil**, for determining site stability and suitability, and also **Carlson Construction**, for accurate strata takeoff estimation.Shortly after each new release of the program, we will update this FAQ to show the menus that come with the installation.
