What you should know about purchasing CMS IntelliCAD

About CAD-Manufacturing Solutions (CMS)

CAD-Manufacturing Solutions Inc (CMS), based in Azle Texas, has over 30 years of experience in the CAD industry. Originally known for its proprietary ProCADD software, CMS now develops and markets CMS IntelliCAD which is built on the powerful customizable IntelliCAD Technology Consortium (ITC) platform.

The team behind CMS has been deeply involved in CAD software development for decades and continues to rely on CMS IntelliCAD internally, including at a partner corporation focused on advanced crane innovation and design.

About CMS IntelliCAD

CMS IntelliCAD is a DWG-native CAD application offering 2D drafting, 3D modeling and BIM underlay capabilities. It includes support for AutoCAD-like menus, ribbon interface, advanced rendering and custom development via LISP, VBA, .NET, IRX and SDS.

The software is designed to support users transitioning from AutoCAD or IntelliCAD-based platforms and includes customizable workspaces, menus,

toolbars and command-line access.

All editions support CAD standards, external references (Xrefs), DGN overlay and interoperability with other CAD and GIS formats.

Operating System

CMS IntelliCAD runs on 64-bit Microsoft Windows systems.

System Requirements for CMS IntelliCAD 10 and Higher

- **Processor**: Intel Pentium 4 or faster, or comparable processor
- **System Memory**: 2 GB RAM minimum (more recommended for large files)
- **Hard Disk Space**: 4 GB free disk space recommended
- **Display and Graphics**: 1024 x 768 resolution or higher, OpenGL ES support
- **Input Devices**: Keyboard and mouse or other pointing device

For the most stable performance, users should install the 64-bit version of CMS IntelliCAD on 64-bit systems. The 64-bit version offers better handling of large drawings by accessing more system memory.
