Are you ready to explore the alternatives to Civil 3D®, Land Desktop®, Eagle Point®, PayDirt, TerraModel®, TDS® or others... ?

If so, spend the day with us, receive PDH credit and see what Carlson, ESRI and IntelliCAD can offer you.

- In a feature-to-feature comparison, **Carlson Software** meets or beats any other civil/survey program on the market
- Receive **FREE** technical support from Carlson's home office - no subscription required
- Receive a **FREE** copy of **IntelliCAD** with every **Carlson Software** purchase
- Receive a **FREE** copy of **ESRI ArcView** when using **Carlson Software** with **IntelliCAD**
- Run on top of any 2000-2010 AutoCAD-based program OR with IntelliCAD, an engine that looks, acts and feels just like AutoCAD
- Work with standard AutoCAD entities - No more proxy objects or saving to others who don't have Land Desktop or Civil 3D
- **That CAD Girl** offers one hour **FREE** Online training with any purchase of **Carlson Software**

For surveyors or engineers struggling with this economy, the tools provided by Carlson, ESRI and IntelliCAD may provide the advantage you've been looking for. Carlson and IntelliCAD provide powerful drafting and design software and will support you when you need it.

And, working together with ESRI, you have the ability to develop a new revenue stream by setting yourself apart from your competition. Instead of using the same procedures to manage data as everyone else, learning to incorporate your survey and design data into a GIS can yield significant advantages for your company - both internally and for your clients.
