FAQ: What you should know about purchasing Carlson Software

---

## Carlson Self-Study Manual – Configuration & Overview of Points

That CAD Girl Self Study Manuals are the perfect complement to your purchase of Carlson Software. The books were written when 2013 software was current but still work well with more current versions of the software.

This is one book with 2 lessons. This book can be purchased, here, separately or as a 2-book bundle with the Field to Finish Self-Study Manual.

---

# Carlson Self-Study Training Manuals (Bundle)

That CAD Girl Self Study Manuals are the perfect complement to your purchase of Carlson Software. The books were written when 2013 software was current but still work well with more current versions of the software.

There are 3 lessons in two books and can be purchased together, as a bundle, or separately:

Carlson Self-Study Training Manuals (2-book bundle)

Carlson Self Study Manual – Configuration & Overview of Points (one book, two lessons)

Carlson Self Study Manual – Field to Finish

---

# Carlson SurvNet

**Carlson SurvNET** can be purchased as a stand alone program or by purchasing Carlson Survey or Survey with embedded AutoCAD (OEM).

**Carlson SurvNET is True Network Least Squares** and automatically means all horizontal and vertical angles including slope distances. No need to manually mean and input all multiple direct or reverse or closed horizon pairs of angles and distances; SurvNET does this automatically.

**SurvNET** also automatically weights redundant angle and distances, it applies and reports these new standard errors after adjusting. SurvNET Network Least Squares reports include mean angle and distance splits prior to adjustment, error ellipse reports, and positional tolerance inverting for Alta Survey compliance.

The **SurvNet** program is also included in Carlson Survey, Survey with embedded AutoCAD (OEM) and as part of Civil Suite.
