Introduction to Carlson Software – Settings, Setup, Configuration & Points

A Virtual Webinar Using Carlson Software – Learn to Configure Settings and Point

This webinar provides a comprehensive introduction to Carlson Software, focusing on configuration, settings management and point data handling. Participants learn how to set up projects, manage templates, configure defaults and work efficiently with Carlson’s survey and civil design tools.

Key Topics:

- Carlson Software interface and configuration
- Setting up projects, data and settings folders
- Creating and using templates (DWT files)
- Managing points, CRD files and drawing setup
- Understanding scales, symbols and annotation standards

Introduction to Carlson Software – Settings, Setup, Configuration & Points

A Virtual Webinar Using Carlson Software – Learn to Configure Settings and Points

This introductory webinar walks new Carlson Software users through essential setup and configuration steps, including interface customization, project folder management, template creation and point handling. It provides practical guidance on organizing data, defining defaults and using Carlson’s drawing and coordinate tools efficiently.

Key Topics:

- Carlson Software interface and configuration basics
- Project and data folder setup
- Drawing templates and default settings
- Point file management and import/export
- Troubleshooting and technical support tips

Introduction to Carlson Software – Settings, Setup, Configuration & Points

A Virtual Webinar Using Carlson Software – Learn to Configure Settings and Points

This webinar provides a comprehensive introduction to Carlson Software's desktop environment, focusing on configuration, default settings, data management and point handling. It walks users through setting up projects, customizing templates, managing coordinate files and understanding how Carlson links data between drawings and external files.

Key Topics:

- Carlson Software interface and menu structure
- Configuration of default settings and data folders
- Drawing setup, templates and annotation scaling
- Managing coordinate (CRD) files and point data
- Linking data files and troubleshooting builds

Introduction to Carlson Software – Settings, Setup, Configuration & Points

A Virtual Webinar Using Carlson Software – Learn to Configure Settings and Points

This webinar introduces new and intermediate Carlson Software users to essential configuration settings, project setup methods and point management workflows. It covers how to standardize templates, manage data and settings files and ensure efficient project organization within Carlson’s environment.

Key Topics:

- Carlson Configure and Drawing Setup
- Project and Data Folder Management
- Template Creation and Customization
- Point File Importing and Editing
- Start Page and Drawing Map Features

Introduction to Carlson Software – Settings, Setup, Configuration & Points

A Virtual Webinar Using Carlson Software – Learn to Configure Settings and Points

This webinar introduces new users to Carlson Software, focusing on configuring system settings, managing project folders and setting up points within drawings. Participants learn best practices for maintaining consistent configurations, organizing data and customizing drawing defaults for efficient CAD workflows.

Key Topics:

- Carlson Configure and general settings management
- Project and data folder organization methods
- Drawing setup defaults (scales, symbols, text)
- Importing and displaying points
- Saving and sharing configuration files

Introduction to Carlson Software – Settings, Setup, Configuration & Points

A Virtual Webinar Using Carlson Software – Learn to Configure Settings and Points

This introductory Carlson Software webinar walks new users through essential configuration steps, default settings and point management in Carlson Survey and related modules. It explains how to organize projects, manage data folders, update builds and customize drawing templates for efficient CAD workflows.

Key Topics:

- Carlson Software configuration and default settings
- Updating Carlson builds
- Project and data folder organization methods
- Customizing drawing templates and scales
- Point display management

Introduction to Carlson Software – Settings, Setup, Configuration & Points

A Virtual Webinar Using Carlson Software – Learn to Configure Settings and Points

This webinar provides a detailed walkthrough of Carlson Software's configuration and setup options, focusing on managing default settings, project folder structures and point display configurations. Attendees learn how to streamline workflows, maintain consistency across projects and customize templates for survey and civil design work.

Key Topics:

- Carlson Configure and Drawing Setup
- Project and Data Folder organization methods
- Point symbol, text and layer defaults
- Template (DWT) creation and customization
- Managing horizontal scales and plotted text heights

IntelliCAD Overview – Where it WAS. Where it IS. And Where it WILL BE.

A Virtual Webinar Using IntelliCAD – Learn About IntelliCAD's Past, Present and Future

This webinar, hosted by That CAD Girl, provides an in-depth overview of IntelliCAD's history, current capabilities and future direction, featuring insights from the IntelliCAD Technology Consortium and Carlson Software. It explores how IntelliCAD serves as a cost-effective, DWG-compatible CAD platform supporting Carlson's land development software suite.

Key Topics:

- IntelliCAD's origins and mission
- Comparison with AutoCAD and DWG compatibility
- Carlson Software's integration with IntelliCAD
- New features in IntelliCAD 10
- BIM, DGN and material rendering capabilities
