

Introduction to Carlson Software – Settings, Setup, Configuration Points

A Virtual Webinar Using Carlson Software – Learn Settings, Setup, Configuration, and Points

This Introduction to Carlson Software webinar explains how users verify software builds, configure global defaults, organize project data, and create dependable drawing templates. The training demonstrates CFG backups, folder methods, DWT customization, CRD point import, annotation scaling, text styles, and the settings hierarchy that controls point display in current and future drawings.

Key Topics:

- Carlson Configure and current-build verification
- Drawing-folder and project-folder organization
- CFG backups and reusable DWT templates
- Point import, CRD creation, and Draw Locate Points
- Annotation scale, PTXT fonts, symbols, and attribute layouts

Descriptions, transcripts and other details of this recording have been AI-generated and may contain errors.

Introduction to Carlson Software – Settings, Setup, Configuration Points

A Virtual Webinar Using Carlson Software – Learn Settings, Setup, Configuration, and Points

This Introduction to Carlson Software webinar explains how users configure core settings, verify software builds, organize project data, and establish reliable drawing defaults. The training demonstrates folder strategies, DWT templates, point-

file imports, annotation scaling, text styles, and the hierarchy of commands that control point appearance in current and future drawings.

Key Topics:

- Carlson Configure and software-build verification
- Project, drawing, and fixed folder methods
- Drawing templates and drawing-setup defaults
- Point import, CRD files, and Draw Locate Points
- Point symbols, attribute layouts, text styles, and annotation scale

Descriptions, transcripts and other details of this recording have been AI-generated and may contain errors.

This session was presented by Jennifer DiBona on 09/07/2018.

Introduction to Carlson Software – Settings, Setup, Configuration Points

A Virtual Webinar Using Carlson Software – Learn Carlson Software Settings and Point Import

This introductory Carlson Software webinar helps new and returning users configure program defaults, organize project

data, create reusable drawing templates, and prepare drawings for point work. It demonstrates current-build verification, folder methods, CFG and DWT files, ASCII point import, annotation scaling, point symbols, text styles, and settings that apply to current or future drawings.

Key Topics:

- Carlson Configure and build verification
- Project and drawing folder methods
- CFG and DWT customization
- ASCII point import and CRD creation
- Point annotation and display defaults

Descriptions, transcripts and other details of this recording have been AI-generated and may contain errors.

This session was presented by Jennifer DiBona on 08/01/2018.

Annotation for Surveyors with Jeremy Taylor PLS

A Virtual Webinar Using Carlson Survey – Learn Efficient Survey Annotation Workflows

This Carlson Survey webinar features Jeremy Taylor demonstrating practical annotation tools for boundary surveys, lot surveys,

subdivision plats, and basic mapping. Attendees learn to configure reusable label settings, place and revise bearings and distances, automate repetitive annotation, dimension buildings and offsets, manage line and curve tables, and label coordinates or reference objects.

Key Topics:

- Annotation defaults and saved settings profiles
- Manual bearing, distance, and leader labels
- Auto Annotate for subdivision and boundary geometry
- Survey Text dimensions and adjoiner labels
- Line/curve tables, coordinates, and offset references

Descriptions, transcripts and other details of this recording have been AI-generated and may contain errors.

This session was presented by Jeremy Taylor on 05/08/2018.

Intro to Carlson Software: Settings, Setup, Configuration & Points

A Virtual Webinar Using Carlson Software – Learn to Configure Settings and Points

This webinar provides a comprehensive introduction to Carlson Software, focusing on setup, configuration, data management, and workflow fundamentals for new and existing users. It covers best practices for configuring Carlson settings, managing project folders, using templates, and establishing standardized CAD environments.

Key Topics:

- Carlson Software installation and user interface orientation
- Configuration settings and defaults (Carlson Configure)
- Project data structure and file management
- Template and layer management in CAD environments
- Creating, importing, and managing point data
- Drawing setup, annotation scaling, and point display settings

Descriptions, transcripts and other details of this recording have been AI-generated and may contain errors.

This session was presented by Jennifer DiBona on 02/06/2018.

Intro to Carlson Software: Settings, Setup, Configuration & Points

A Virtual Webinar Using Carlson Software – Learn to Configure Settings and Points

This webinar provides a foundational introduction to Carlson Software, covering installation setup, configuration, default settings, project/data folder structures, and point management within IntelliCAD and AutoCAD environments. The session is designed to guide new users through best practices for technical support, build updates, templates, and drawing configuration for efficient CAD project setup.

Key Topics:

- Software setup, builds, and technical support
- Carlson Configure and default settings
- Project and data folder methods (fixed, drawing, project)
- Point file imports, symbols, and scaling
- Template (DWT) customization and text style management

Descriptions, transcripts and other details of this recording have been AI-generated and may contain errors.

This session was presented by Jennifer DiBona on 01/03/2018.

Intro to Carlson Software: Settings, Setup, Configuration & Points

A Virtual Webinar Using Carlson Software: Learn to Configure Settings and Points

This training webinar provides a detailed introduction to Carlson Software, focusing on installation defaults, configuration settings, data management practices, and basic drawing principles in Carlson Survey. It guides new users through essential configuration steps like drawing setup, project folder structure, and template customization to align the software with company standards.

Key Topics:

- Carlson Configure and General Settings
- Project and Data Folder organization
- Drawing Setup and horizontal/vertical scale management
- Template (DWT) files and configuration backup (CFG)
- Point management, symbols, and labeling in Carlson Survey

Descriptions, transcripts and other details of this recording have been AI-generated and may contain errors.

This session was presented by Jennifer DiBona on 03/07/2018.

Intro to Carlson Software: Settings, Setup, Configuration & Points

A Virtual Webinar Using Carlson Software – Learn to Configure Settings and Points

This webinar, led by That CAD Girl, provides a comprehensive introduction to Carlson Software, focusing on initial setup, configuration, default settings, and point management. Attendees learn how to manage data folders, templates, builds, and drawing environments across Carlson Survey, Civil, Construction, and Takeoff.

Key Topics:

- Carlson Software configuration and data management
- Drawing setup, templates, and builds
- Points setup, display, and linking with CRD files
- Object linking, field-to-finish, and annotation sizing

Descriptions, transcripts and other details of this recording have been AI-generated and may contain errors.

This session was presented by Jennifer DiBona on 05/02/2018.

Intro to Carlson Software: Settings, Setup, Configuration & Points

A Virtual Webinar Using Carlson Software – Learn to Configure Settings and Points

This webinar from That CAD Girl provides an introductory walkthrough of Carlson Software setup, foundational configuration, and default behaviors across its surveying and civil design tools. It covers installation, folder organization, default settings, drawing setup, and point management for new and intermediate users.

Key Topics:

- Carlson Software setup and configuration
- Technical support and build updates
- Project data folder methods
- Default settings under Carlson Configure
- Drawing setup, scales, and annotation sizing
- Point management and display customization

Descriptions, transcripts and other details of this recording have been AI-generated and may contain errors.

This session was presented by Jennifer DiBona on 06/05/2018.

Drawing Templates and Overview of National CAD Standards (NCS) for Layers

A Virtual Webinar Using CAD – Learn to Build NCS Drawing Templates

This webinar provides a comprehensive overview of how to use drawing templates in Carlson Software and apply the National CAD Standard (NCS) for layers. It explains the structure of NCS layer naming, its flexibility, and how to integrate it into Carlson workflows for civil and survey projects.

Key Topics:

- National CAD Standard (NCS) layer naming conventions
- Creating and customizing drawing templates in Carlson
- Using Carlson's Layer Library for CAD standard enforcement

Descriptions, transcripts and other details of this recording have been AI-generated and may contain errors.

This session was presented by Jennifer DiBona on 11/27/2018.
