

QG-MAGNET Office Offline Activation Method

Summary

This process explains how to manually activate a MAGNET Office license when the computer does not have internet access.

First, the user logs in to myTopcon through Topcon Positioning Systems and activates the purchased MAGNET Office serial number. During the activation process, the Device ID must be entered in all capital letters. The website then generates either an activation code or a downloadable .lic license file.

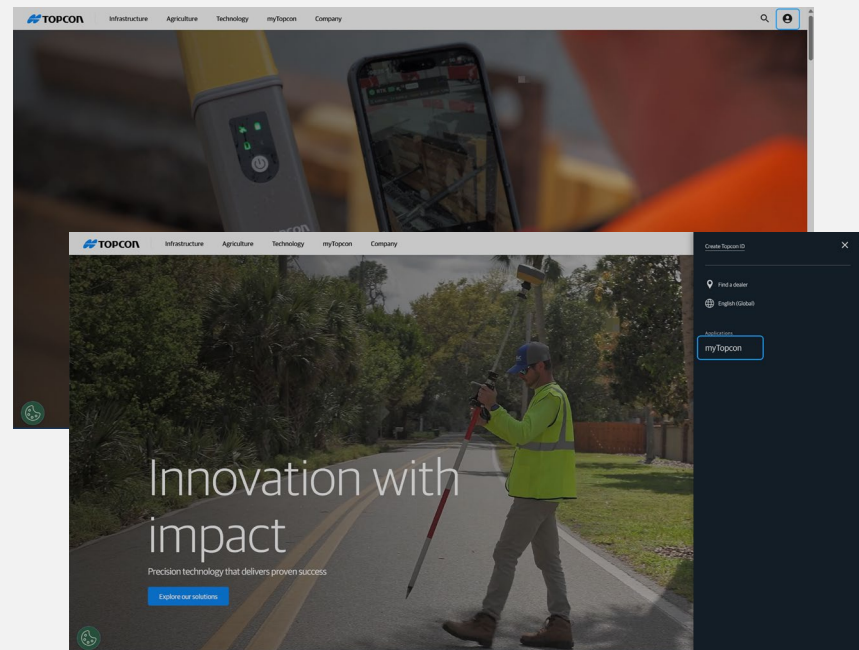

Next, the user launches MAGNET Office and selects Offline Activation from the Product Activation window. The activation can then be completed by either pasting the activation code directly into the software or importing the downloaded .lic file.

After accepting the End User License Agreement and completing the activation steps, MAGNET Office will be successfully activated.

Please note that licenses activated using the Offline Activation method will not support the Check-In / Check-Out feature. To use that functionality, the license must be activated online.

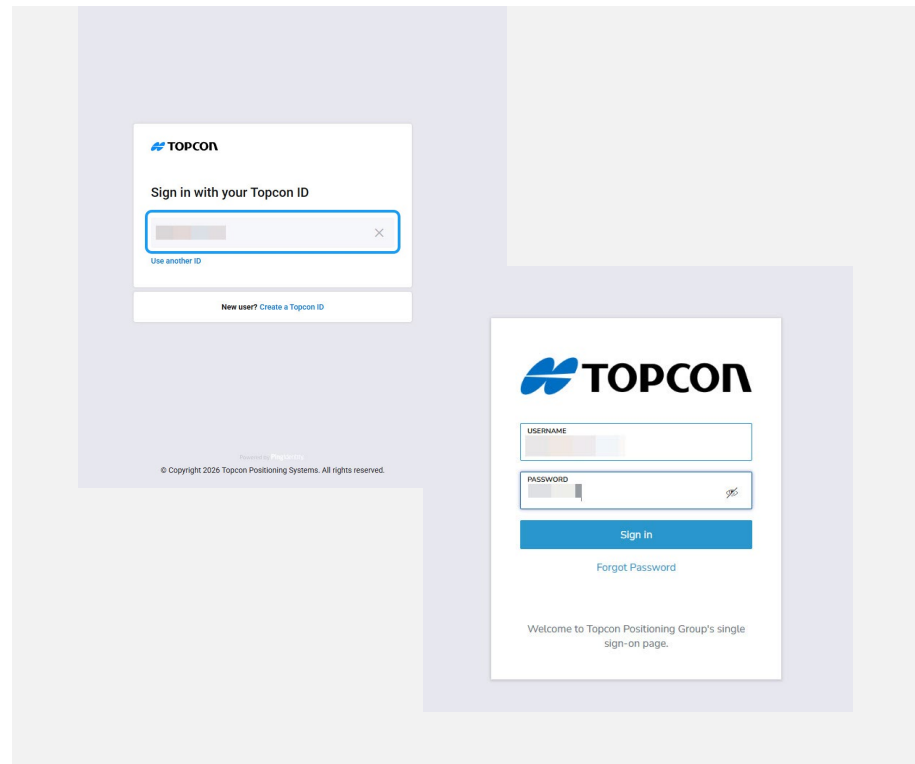

Logging in to myTopcon's Website

- To access myTopcon, navigate to www.topconpositioning.com
- Then click the account/person icon in the upper-right corner of the page.
- From the drop-down menu, select myTopcon.

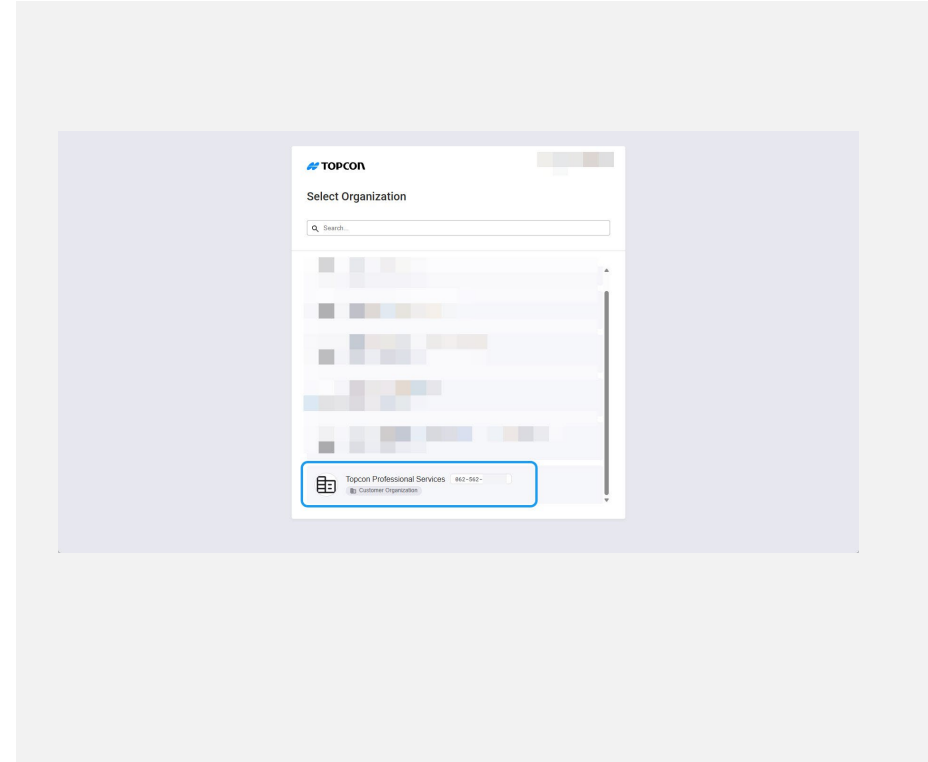

Generate the License File

- If you are not already logged in, you will be prompted to create an account or sign in.
- Go ahead and sign in using your Topcon credentials.

Generate the License File

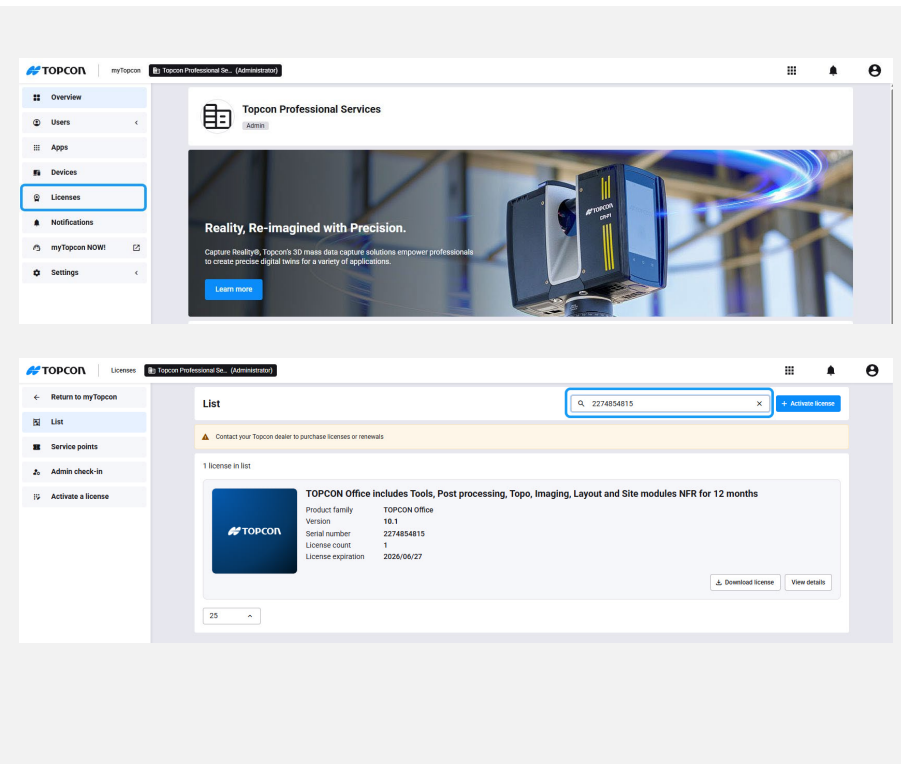

- Select the organization for which you want to activate the license.

Generate the License File

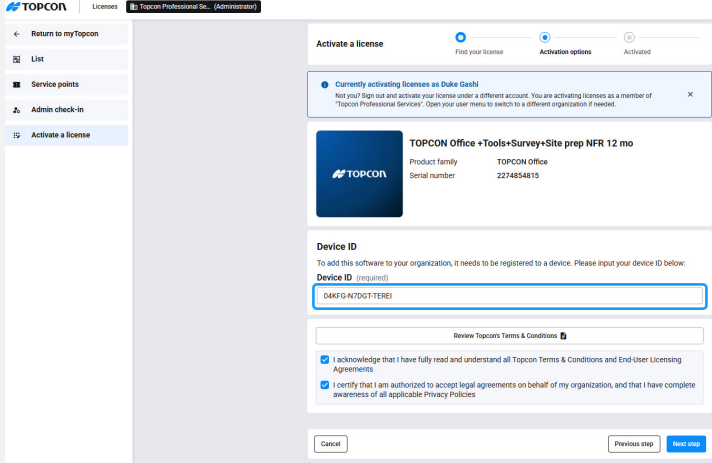

- In the menu on the left side, select **Licenses**.
- Then in the upper-right corner, enter the purchased MAGNET serial number and click **ACTIVATE LICENSE**

Confirm the product details. Verify that the serial number and product type are correct.

Generate the License File

- Enter the Device ID in ALL CAPS.
- Check the box to accept the End User License Agreement, then click **NEXT STEP**.

Currently activating licenses as Duke Gashi

Not you? Sign out and activate your license under a different account. You are activating licenses as a member of "Topcon Professional Services". Open your user menu to switch to a different organization if needed.

TOPCON Office •Tools•Survey•Site prep NFR 12 mo

Product family: TOPCON Office
Serial number: 2274854815

Device ID

To add this software to your organization, it needs to be registered to a device. Please input your device ID below:

Device ID (required):

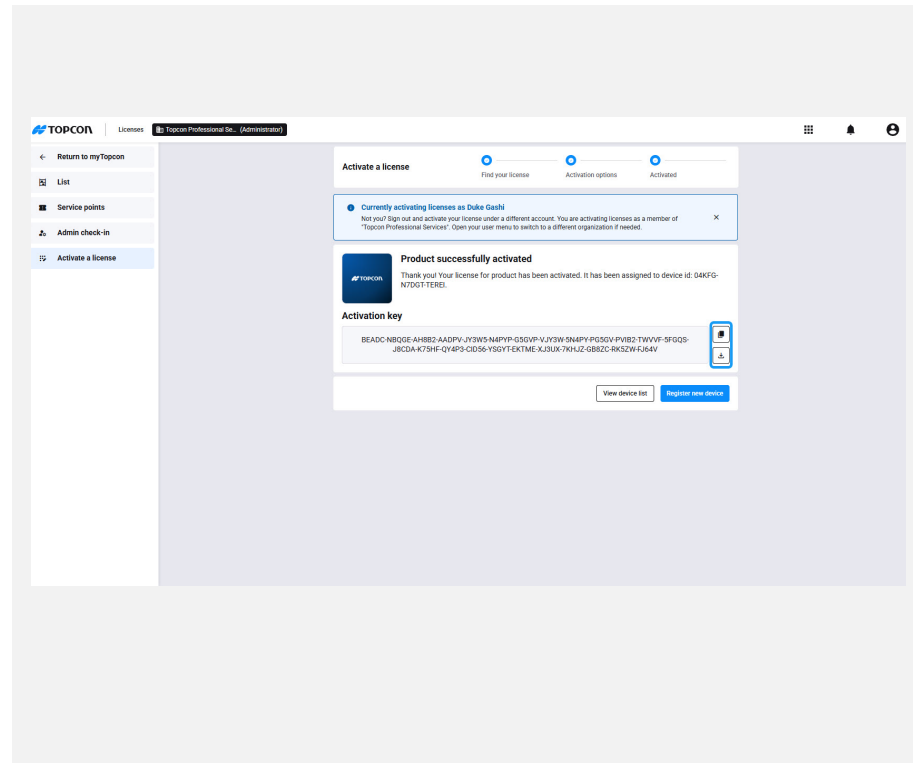

Review Topcon's Terms & Conditions

☒ I acknowledge that I have fully read and understand all Topcon Terms & Conditions and End-User Licensing Agreements

☒ I certify that I am authorized to accept legal agreements on behalf of my organization, and that I have complete awareness of all applicable Privacy Policies

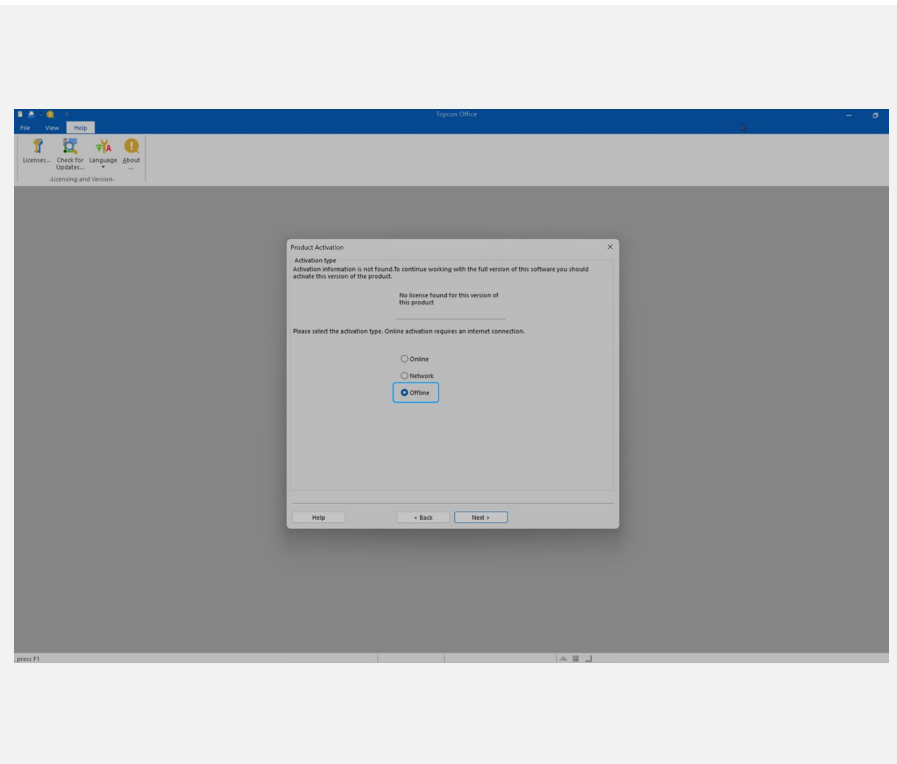

Download the License File

- The activation key will be generated automatically. Click **Copy Activation Code** or **DOWNLOAD LICENSE FILE**.
- Since this file will be transferred to the offline device copy the file to a USB drive.

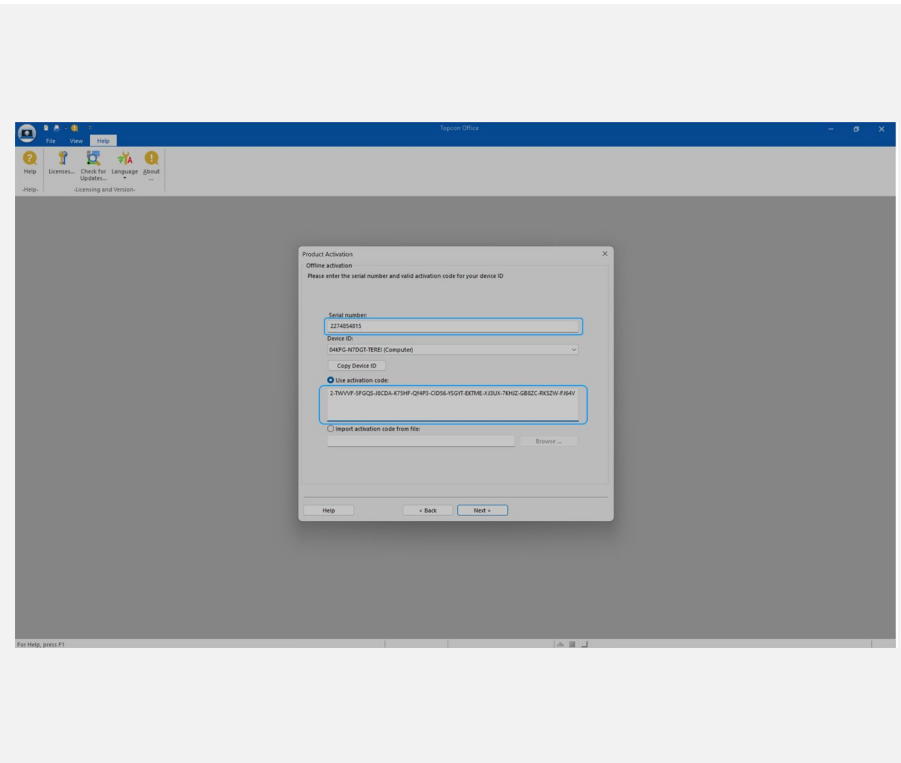

Activate the License in MAGNET Office

- Launch MAGNET Office.
- If the software is running in Demo Mode, the **Product Activation** window will appear automatically.
- Select **Offline Activation** and click **Next**.

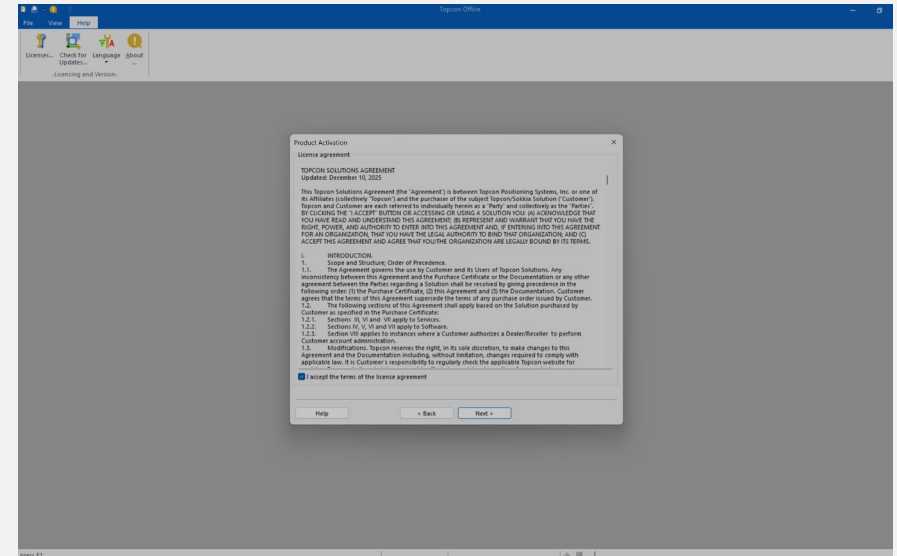

Activate the License in MAGNET Office

- Enter the MAGNET Office serial number.
- Choose one of the following activation methods:
 - Paste the activation code directly into the activation window.
 - Click **Import** to browse for the license file.
 - If importing from a file, look for a file named: activationkey_<serial number>.lic

Activate the License in MAGNET Office

- Accept the End User License Agreement and click **Next** again.

Activate the License in MAGNET Office

- The MAGNET Office software should now activate successfully.
- **Important Note About Offline Activation**
- When using the Offline Activation method, subscription licenses or licenses with active maintenance will not support the **Check-In / Check-Out** feature.
- To use the Check-In / Check-Out functionality, the license must be activated using the Online Activation method.
